- AsMA

San Diego

- First ESAM Panel. Things that keep us awake in Europe

- Joint Austrian, German, Swiss Aeromedical Associations Meeting, Friedrichshafen, Germany.

Meetings

- EC-AB Meetings
 - Friedrichshafen, Germany. September 2013
 - Valetta, Malta. February 2014
 - Schiphol, The Netherlands. June 2014

Meetings

- **Scope Meeting** **February 2014**
 - We need as many views as possible to come forward and be included, avoiding the risk of closing down the options.
 - Forward a pilot representative or a member for a working group.
 - Stay away from hard rules.
 - Make a case for the need for change. This change in mind set will be far beyond ECAM 4. It will take up to twenty years.
 - It was agreed that we need to sell the idea of a need for change not of the idea of the need for “providing” solutions.
 - The change must come from within Europe and be in keeping with the ICAO goal.

Scope Meeting

- Preventive Medicine, Long term outlook.
- Trust.
- Psychosocial wellbeing.
- Multi-disciplinary team based decision making.
- Safety impact. Acknowledge
 - The change in aviation.
 - Increased work based demands on pilots.
 - Increased stress on pilots.
 - Decrease in impact of medical pathologies.

ESAM Scope Meeting

February 1st

2014

ESAM Meeting on the future of the
Aeromedical Examination
Valetta, Malta.

Minutes

How we screen for and prevent
health problems in aviation
